

Invitation to:

International conference „Innovative solutions of wastewater treatment for the scattered settlements of rural areas”

Gliwice, Krynica, Poland, 20-21 October 2010

Organized by Polish Ecological Club and Coalition Clean Baltic

Dear CCB-network members!

Last two year Polish Ecological Club, together with CCB, have promoted sustainable sanitation in Poland, especially in rural areas. This conference sum up our efforts.

We would welcome to hear your opinion in a discussion about the situation in your countries. This seminar is the opportunity to meet representatives of science and administration and NGOs to exchange the opinions and lobby for the best policies, practices to introduce sustainable sanitation solutions as alternatives to conventional sanitation system.

We would like to invite one representative of each member organization, who works on sustainable sanitation and has a wide interest in this problem.

CCB Travel grants are limited. Cheapest mode of travel shall always be used.

See the enclosed Agenda and Registration form to be filled up and send back to CCB secretariat.

See you in Poland!

On behalf of CCB secretariat
